This property is absolutely gorgeous, it contains a lake and open fields and a small area of trees. The property will be subdivided from a larger parcel that currently has an upscale log home and fenced area for horses.

Very private. The property has an abundance of Deer and Turkey. It even has a pole barn (with open sides) previously used by previous owners for RV and other vehicles. Lots of potential to convert into many different uses including a residence. Property has 3 Perk sites.
