Exceptional Daniel Island Home

This beautiful home has been meticulously renovated (down to the studs in the Kitchen and Master Bath) and upgraded with exquisite attention to detail throughout. As you walk through, you will see how extensive the renovations and updating are, and you will also see the before and after pictures showing how dramatic the changes are. For the exterior, among the details are a new roof, fresh exterior paint, crawlspace work, and professional landscaping (including an irrigation system). In addition, the lot is unique in that both sides of the house overlook green space and woods. Please be sure to see the brochure that lists all of the renovations and upgrades in detail – and of course you are welcome to take one with you. In addition to all of this, 1061 Barfield is considered to be in an ideal location because it is so close to Daniel Island's town center, schools, shopping, restaurants, library, and more. A truly outstanding home.
