You may hear “perfect for entertaining” thrown around, and this is the real thing - fixtures curated by a professional interior designer with a flair for authentic mid-century modern creates the “wow factor” you won’t find elsewhere - this Park Circle treasure is magazine ready!

An exquisite midcentury gem overlooking Quarterman Park in the heart of Park Circle. Experience the best of both worlds: live within walking distance of everyone’s favorite shops, restaurants, and nightlife, and then return home to one of the crown jewels of this serene city park, home to ducks and geese cherished by the locals. Nestled on 1/3 acre, this home has been lovingly restored to its midcentury glory, with a modern chef’s kitchen that now opens into the stately living room. French doors extend the flow of the home into the finished back porch, adding another 240sqft of living and entertaining space. In addition, the front room - currently a lovely formal dining room - can be whatever you wish to savor the sweeping panorama of Quarterman Park from its large picture window. [MLS#20011039](#)
