

Back on Market - \$850,000

1159 King Street

North Central · Charleston, SC 29403 · MLS# 22003273

A rare opportunity to own an updated home on King Street in downtown Charleston. This 1,897 square foot home in North Central sits on a corner lot with great curb appeal from the front, side and back. In 2018-19, owners replaced the roof, hvac, plumbing, updated electrical, put in a tankless water heater, encapsulated the crawl space and put in a dehumidifier. On the main level, they opened up a wall to a glorious bright kitchen with a reclaimed wood island built by Landrum Tables, shiplap, quartz countertops, subway tile backsplash, and gas range with hood vent. Upstairs has all four bedrooms. Outside, enjoy the covered patio and fire pit area!
