RESIDENTIAL

This is an amazing opportunity to own a fully restored, 1930's triplex located in one of the most desirable locations downtown. All three apartments are being rented full furnished on month-to-month leases, giving this property great income potential. Recent improvements to the property include refinished hardwood floors, all new stainless steel appliances (including washers and dryers), Rinnai tankless hot water heaters, and brand new mini-splits. They are separately metered with dedicated entrances and plenty of off street parking. No flood insurance is currently required, and with an acceptable offer, this triplex may be sold fully furnished.
