

Folly Beach

Panoramic views enhance this amazing beach house. The open floor plan has plenty of room for family and friends to gather. Enjoy gorgeous sunrises over the Atlantic ocean in the morning and incredible sunsets over the marshes & rivers in the evening! An abundance of decks and porches create great outdoor space and the east end of the home has a screened-in porch for al fresco dining. What a way to enjoy Salt Life at the beach! The master suite is very spacious with a sitting area as well as an office area. A large bank of windows allows you to wake up to the sound of the waves and see them, too! Sliding doors lead to private deck. Use this for your personal home or continue as a rental. Furniture & appliances convey with some exclusions.
