Custom home with private Deepwater Dock and Covered Boat Lift on Bull Creek off the Ashley River. This three story low country style home is situated on a large corner lot in the private gated neighborhood of Ashley Harbor. When entering the main level through the front door, ten foot ceilings and custom hardwood floors span the foyer, main living area, formal dining room, and traditional living room. The main living area overlooks the Ashley River with coffered ceilings, a masonry fireplace, a powder room, and French doors leading onto the large screened in porch. This is one of Charleston's few true deepwater lots. Bull Creek is situated off the Ashley River and provides navigable access to the Atlantic Ocean.
