Sullivan's Island is home of the laid back small beach town lifestyle of enjoying the ocean breezes, the beach, the marshes, the history and charm of the island living. 1611 Middle Street is on the quiet side of the island with a short walk to the beach or the intra-coastal waterway. Renovation 2016 created a home that embodies beach lifestyle and understated elegance of a modern, open and inviting living space. The main floor provides access on one level to wide, large porches used nearly year round as outdoor living space. There are discrete areas to enjoy privately or in groups indoors and outdoors: the kitchen and dining area, the living room, the back indoor "sunroom", the front and side porches, the ground level patio area, backyard/garden. And Charleston is only minutes away!
