You got questions, so here are some answers. This is by far...one of the best opportunities in the area! This home offers more than meets the eye. Owners renovated this home, so let's go down the list of features. The home features new windows, roof, and doors to begin. The bathrooms and kitchen were remodeled with new cabinets and vanities. The owner put real nice touches to this. The owner converted a space that was once a family room and added a full bathroom. The current occupant uses this as a 4th bedroom, but it does not have a closet currently. The home has hardwood floors that have been refinished...and they shine! From the original floor plan, there was an addition on the rear of the home that is a HUGE family room. This space features lots of windows, so there is plenty of natural light. Off the family room is a very large laundry room and a screen patio on the other side. This home give the best of both worlds. It provides a home with character in an established neighborhood along with the features and space of much newer areas. You won't be disappointed with this one.
