waterfront pool, fitness + sauna | pickleball + tennis | nature trails | agrihood | community events + clubs

Price Adjustment on One of Kiawah River's Most Sought After Floor Plans

This well-designed plan welcome the outdoors in—where sunlight pours through generous windows and peaceful views of surrounding greenspace become part of everyday living.

Thoughtfully designed to balance comfort and sophistication, the home features a sun-drenched open plan, a peaceful main-level primary suite, a private office, and a generous bonus room with wet bar—spaces designed to adapt beautifully to both quiet retreats and vibrant gatherings

Stretching the full length of the home, the screened porch opens from both the living area and the primary suite, creating a private outdoor retreat for morning coffee and evening breezes. A detached rear garage provides added privacy, with preserved greenspace stretching just beyond.
