~ Great beach access! ~

~ Great investment property! ~

~ Amazing options! ~

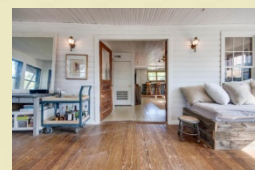

~ New roof in April 2015 ~

~ Exterior painted in June 2015 ~

This street-to-street lot can also be a great building opportunity! One block to Folly Beach center and across the street from the beach lies this duplex providing ocean views from the second floor of this older house. Presently generating steady rental income.

This second row lot has street-to-street access, along with a beach access easement on the east side of lot. There is plenty of room to the side and rear of the house (yard is presently privacy fenced) for expansion of the existing house or building a new house.

This is a great location on Folly Beach! On the first level, there are two bedrooms, one bath, a good-sized living area along with a porch and a deck. The second floor residence provides ocean views, three bedrooms, two baths, family room and a deck.
