

26 State Street ~ French Quarter ~ MLS# 20019904 ~ \$1,675,000

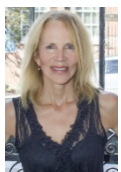

This is a RARE GEM in the center of all that is Charleston

Behind the iron gates in the Historic French Quarter, this serene retreat is a HOME that warms the heart and captivates the soul. Built in 1841, its key features are LOCATION and PRIVACY.

The interior is light and airy, awash with architectural details. Here one can enjoy total privacy on a double lot, surrounded by trees and lush landscaping. A relaxing porch off the sun-drenched 2nd bedroom looks out over this bucolic setting, yet you are steps away from Waterfront Park, Charleston's restaurants and art galleries. Bike everywhere!

With a deck, grassy yard (plenty of room for a pool) and patio areas, this home is perfect for outdoor dining and entertaining. Parking for 4 cars is its coveted feature!
