This site is improved with a two story, masonry office warehouse. Originally two separate buildings, the former owner joined the two in the 1980's and placed a gable, metal covered roof over the two buildings. The first floor contains approximately 600 SF of office space and 6,632 SF of warehouse space. The second floor contains 1200 SF of office space. Construction features include a raised concrete slab foundation and a painted concrete masonry block exterior. The interior of the warehouse has a concrete first floor, open wood truss ceiling and exposed concrete block walls. The office area consists of wood paneled walls, carpet, and both drop and blown ceilings.
