

Shows Like a Model Home

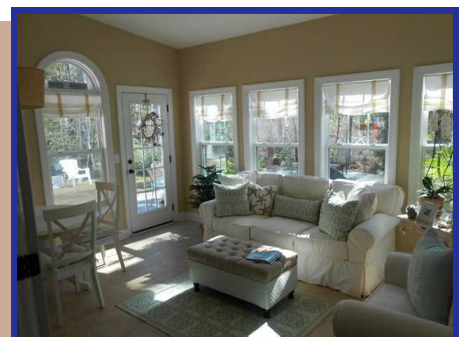

3904 Carpentaria Ct

Indigo Palms ~ North Charleston

MLS# 1303235 ~ Offered at \$268,500

This home shows like a model, has upgrades galore and is located on a premium lot. Is in the highly desired Dorchester II school district. This was the most popular floor plan when built. One story home at the end of a cul-de-sac with very private back yard. Very open floor plan with beautiful hardwood floors through out the main living area, kitchen and dining room. At the front of the house is a large room that current owners use as a game room but would be a perfect office. The dining room is on the other side and very spacious with vaulted cathedral ceilings, heavy crown molding and wainscoting. The main living area is open to the kitchen and has a gas log fireplace. The kitchen boasts upgraded wood cabinets, stainless steel appliances, gas cook top and granite counter tops. There is a nice eat in area under a bank of nice bright windows right off the kitchen.

The large master bedroom features a tray ceiling and plantation shutters. French doors lead into the master bathroom with walk in closet, stand up shower, duel vanities and soaking tub. There are two guest bedrooms on the other side of the house both with plantation shutters and a full bath in the middle. On the back of the house are french doors leading to a 12 x 16 sunroom with tons of light and ceramic tile floor. There is a large secluded laundry room before you walk out the two car garage. Out back is a very private setting with a wooded area behind and privacy fence on both sides. There is a 45 foot patio which allows you to enjoy the nice private back yard. The yard is nicely landscaped with outdoor lighting to round it all out. This home is completely turn key and a pleasure to show.
