You Won't Have To Wait For This One!

One of the largest homes in Strawberry Plantation. This home features an amazingly functional layout and space galore! Enter the foyer and you are welcomed by beautifully designed and upgraded flooring. The home features a full bath along with a guest bedroom or two on the first floor. Go a little further up the hallway and meet the formal dining room. With a short step to enter the kitchen, your formal meals and functions will be great because you don't have to carry the food a long way to serve. The kitchen on this home is huge! Plenty of counter space and a large island to prep on. With wall ovens, your inner chef will smile. The kitchen has an eat in area which is adjacent to the even larger family room. So you can keep an eye on the game and interact with the family all at the same time! Now if you think the downstairs is where this home shines...I will tell you that upstairs it gives a real run for the money. Take the quick run up the stairs and you enter a large loft area. The owners have it set up as a movie room complete with curtain. A hall/bridge runs from the loft to the secondary bedrooms upstairs and the laundry area. All rooms are spacious and will accommodate nearly any furniture you could imagine. So bring your dreams to their new home. Two of the bedrooms share a bath in a jack and jill style while the other two secondary bedrooms have a bathroom in the hallway between them. The master bedroom is the real story. The master suite is the width of the home. With a master bath that features a large walk in shower, a large soaking tub, and loads of space. It is it's own oasis. You won't find a better opportunity to have a home this large at this price now!
