A laundry room at the back of the house keeps the rest of the house clean. All aspects of the home were meticulously thought out. Upstairs there are 3 bedrooms with upgraded carpet and a loft space that is a great tv room, play area, or can be closed in for a 4th bedroom if needed. The master has lots of space and tray ceilings. The master bath has the walk in closet, dual sinks, a shower, and a separate oversized tub. If you have lots of "stuff" there is huge storage closet upstairs, an added storage space under the stairwell that you won't find in any other OTP home, and storage space in the attic.
