Fantastic home in a great location! The owners have just completed a major renovation of the master bedroom and bathroom with new fixtures, flooring and paint. They have spared no expense making the kitchen a masterpiece with Jennair appliances, marble countertops and hammered copper kitchen sink. The oak hardwood floors have recently been sanded and refinished in a walnut stain.

The decks have also been painted recently and the banisters were replaced with stainless steel wire, giving it a nautical look. The home overlooks a lagoon and is nicely landscaped with a pond, outdoor lighting and sprinkler system. New carpet to be installed upstairs in March '13!
