This charming brick home has been wonderfully renovated and is in a great location! The kitchen has quartz counter tops, stainless appliances and updated cabinetry. A half bath and laundry area were added off of the kitchen. The living/dining area open with French doors onto a deck and spacious backyard. There is an enclosed storage room off of the carport and extra, off street parking.

Hardwood floors are in all rooms with the exception of tile being in the full bath. The price point is attractive for first time buyers or those scaling down!
