Welcome To An Exceptional Home

No Detail Was Left Undone In Preparing For its New Owner

Move in knowing that your new home is in tip-top shape in every respect—Roof, HVAC, Carpeting, Lighting, Plumbing, and much, much more. You will also be the first to use every one of the new Whirlpool “Smart” Stainless Kitchen appliances, and the first to use the equally brand-new Washer & Dryer. That’s right, every single appliance is new as of July 7th!

As you’re taking your tour, make sure to notice the smaller details that make it such a pleasure to settle in, the details that mean you don’t have to take hours to clean, to repair, to replace anything...not even the lightbulbs (all new LED). Your only job is to put your furniture where you like it, unpack, and leave some time to relax on your new patio in a landscaped backyard with a stream running behind it and dense woods for extra privacy. What a gem of a house this is—great inside and outside, great location, great peace of mind. Welcome Home.

(For a complete list of every detail, please be sure to take a copy of the Features sheet, and for room dimensions, a copy of the Floor Plan.)

3 Bedrooms, 2.1/2 Bathrooms, 1653 Sq. Feet
