You walk in the front door to an elaborate **two story foyer** as the smell of fresh paint and a clean home engulfs you. Ahead of you are **floor to ceiling windows** that are gleaming with sunshine. Hardwood floors are sparkling throughout the foyer, dining room, and living room as you peruse through the entryway. You walk casually through the living room to the left as you notice the **office** and half bath tucked away in the back corner of the home. Suddenly the feel of a light spring breeze on your face coming through the two large open windows you delight in the sound of a fresh rain trickling down the drain pipe and watch a cluster of tall pines swaying in the breeze in the back yard. You stroll back through the living room and into the kitchen as you revel in the **openness of the floor plan**. Ahead you is a sophisticated dining room with **ornate picture frame molding** around the bottom along with **extended crown molding** at the top. Up the stairs are **4 large bedrooms and two full bathrooms**. You walk to the front bedroom and peek through the new plantation style blinds as you see the neighbor across the street wave to the kids passing by on bicycles. You exit the room and enter the master bedroom down the hall. With a tall **vaulted ceiling and french doors** leading to the **ensuite master bath**, you take two steps in, close your eyes, and **imagine your family, your furniture, and your decor fitting perfectly in this house**. You take a deep breath and open your eyes only to think: "I am finally home."
