

Drew Sineath & Associates is seeking to hire experienced agents to work buyer leads!

We are overwhelmed with high quality leads that need attention. These leads are databased in a system that allows you to see exactly what the buyers are looking for in a home. Do you want to be busy?

We have enough leads to keep you busy.

Agents are always worried about their next paycheck. In this market, with these systems in place, you will only have to worry about if you will have enough time to attend all of your closings! We need agents who are self motivated, willing to follow-up and willing to serve others! And not only do you receive leads, but you also receive closing support as well. This allows you to sell more homes!

Real estate is hot and qualified characters are welcomed!
