Harrington Place in Grand Oaks Plantation. This open floor plan is sure to WOW!!! Big kitchen, oversized breakfast nook, formal dining room (currently being used as an office space) and large living area all flow together effortlessly. The master and secondary bedrooms are located upstairs. The master suite has a large bathroom with double vanity. The walk in closet is HUGE!!! The secondary bedrooms are both big and bright. Oh yeah, and this lot backs up to the pond and has a great screened in porch. I bet you can almost see yourself sitting out on the porch enjoying your coffee and the nice views... don't worry if its too hot you can enjoy the same views from the kitchen and living room, too! You really should come see this one today.
